

Quick & Easy Energy Savers from EFI

The TerraLogos 10% Discount

As a TerraLogos customer you can buy online from EFI and **save 10%** off their already low prices. To get your discount,

1. Go to EFI's on-line catalog <http://www.energyfederation.org/consumer/default.php> and make your selections, adding them to your shopping cart. Use the item numbers and descriptions below to find some of the best selections.
2. After you have filled your shopping cart and started the checkout process, you will come to a screen labeled "**Payment Information**" where you will enter your credit card information.
3. In the middle of this page in the "**Coupons & Promotions**" section, simply enter the **password "terralogos"** in the "**Code**" box and click on the "**Redeem**" button to receive your 10% discount.

Recommended Products

Here are some quick & easy ways to save energy dollars. We have personally tested these items and recommend them for their convenience, performance, quality and price.

Part #	Item(s)	Total before discount
 1100.923	We liked both the Energetic and TCP bulbs below because of their great warm color and instant-on starting. The Energetic is a bit taller and thinner, but will fit almost any fixture. It replaces a 75 watt incandescent, but only consumes 23 watts of electricity. Energetic 23w Spiral FE127 23W	\$3.25
 1100.015	We liked both these TCP and the Energetic bulb above because of their great warm color and instant-on starting. These bulbs are economical and small traditional light bulb size will fit most fixtures. Equivalent brightness: 14 watts = 60 watt incandescent 20 watt = 75 watt incandescent TCP 14w ESB Spiral UB14	\$3.25
1100.018	TCP 20w ESB Spiral UB204	\$3.25

 1160.6381 1160.647	<p>We tested all the reflector bulbs in the catalog – this one performed the best with its instant-on start-up and warm color. Compact fluorescents do take about a minute to come to full brightness, so be patient. Both can be used indoor or outdoor.</p> <p>TCP 19w R-40 Floodlight 1R4019 \$10.40 TCP 14w R-30 Indoor/Outdoor 1R3014 \$9.75</p>
 1100.913	<p>We tried a couple of 3-way CFL's, but only this one really had three levels. It had instant-on start-up, but as with all CFL's, it took about a minute to come to full brightness. Equivalent to a 50/75/100 watt 3-way, but only uses 12/23/30 watts. This tall wide bulb can only be used in lamps with oversized harps.</p> <p>Harmony 30w 3-Way Spiral SS-30-3W \$8.95</p>
 1100.945	<p>These elegant round globes offer flicker-free start-up, and are suitable for use in bathroom vanity lights, swag lamps, pendant lamps, and similar types of indoor applications. They come in several sizes.</p> <p>Feit 11w G25 Globe BPESL11GT \$5.50</p>
 3010.423	<p>This low-flow kitchen dual spray swivel aerator lets you direct the water flow where it's needed. Pull down on the aerator head for wide full-force spray, or slide it up for a splash-free aerated stream. A flip lever quickly reduces the full flow to a trickle to save more water.</p> <p>AM 2.2 gpm Dual Spray Aerator FA036 \$2.50</p>
 3000.11	<p>This chrome plated solid brass water-saving showerhead is a favorite. The trickle button reduces flow to save more water while lathering. The spray is strong, variable and satisfying.</p> <p>Niagara 2.25 gpm Control Valve Showerhead N2131 \$4.25</p>

	<p>The 2.0 gpm adjustable showerhead delivers a broad, soft, rain-like spray or a strong focused, pulsating massage. It is self-cleaning, and non-aerated spray for less temperature loss between the showerhead and you. Brass and plastic with a chrome finish.</p>	\$4.95
<u>3000.16</u>	<u>Niagara 2.0 gpm Earth Showerhead N2920NC</u>	
	<p>Many water-saving showerheads are "low flow", but not particularly "water efficient". This "self-pressurizing" showerhead automatically adapts to variable water pressure, so you always get a great shower. Its comfort control lever allows a range from brisk & stimulating to soft & gentle.</p>	\$29.95
<u>3000.091</u>	<u>ETL Oxygenics Skincare Showerhead 6030-XLF 2.0</u>	
	<p>If you have a gas or oil furnace or a gas range, you are advised to monitor for Carbon Monoxide, a deadly gas that is generated from incomplete combustion. As with smoke alarms, multiple monitors are suggested. This carbon monoxide alarm is ideal for hallways and living areas. Its digital display clearly informs occupants of the current carbon monoxide level. When CO is detected near dangerous levels, an 85 decibel alarm sounds. It also has peak level memory of the highest recent CO level detected. Battery powered, it is easy to install, and operates reliably during a power outage.</p>	\$46.50
<u>5020.201</u>	<u>Nighthawk Premium CO Alarm 900-0089 KN-COPP-B</u>	
	<p>No programming required! Just one day and one night temperature setting. Best suited for consistent simple stay-at-home control. There is a vacation option too. These Honeywell are smart! They optimize ON-OFF cycles for your system for lower costs and even temperatures.</p>	\$38.00
<u>5000.501</u>	<u>Aube Manual 30V Thermostat TH135-01</u>	

	<p>Program the whole week. This thermostat allows 4 temp changes per day and you can vary it each day of the week. You can set summer and winter programs that change automatically. AND it's not difficult to do. Plus it won't forget your program after a power loss. ON-OFF cycles are optimized for economy and comfort. This works for any heat or AC system except electric resistance.</p>	<p>\$55.00</p>
<p>5000.59</p>	<p>Aube Programmable 30V Thermostat TH141-HC-28</p>	
	<p>If your Window Air Conditioner cools the room <i>in winter</i>, you are losing money. Tighten-up with these AC fitted blankets. Each pack contains a beige washable poly/cotton fabric with wind-block insulation, and a roll of removable tape. Check your size, they come in Sm, Med and Lrg.</p>	<p>\$13.95</p>
<p>3560.41</p>	<p>Medium Air Conditioner Cover</p>	
	<p>Older style double-hung windows can be maintained and relatively air-tight. But they always leak at the two lift- rope pulley pockets at the jamb tops. Just feel the draft they make in the winter. Pulley seals are designed to fit snugly over pulley weight holes of older double-hungs eliminating drafts. Comes with adhesive gasket & screws. Easy to install. Do the whole house to get full effectiveness.</p>	<p>\$25.00</p>
<p>3560.021</p>	<p>Anderson Pulley Seals (25 Pair)</p>	
	<p>Water heaters have substantial standby heat losses. It is important to insulate the first 6 feet of both hot and cold pipes above the water heater. Continue insulating all hot water pipes that are visible.</p>	<p>\$3.95</p>
<p>4000.031</p>	<p>MD 3/4 inch Tube Pipe Insulation (12 feet) 50142</p>	
	<p>Not all outlets leak air. But if one does others may too. These polyethylene foam gaskets install behind electric outlet plate covers to reduce drafts. For double or triple gang boxes multiple gaskets can be overlapped and trimmed to fit. At \$0.10 each, buy the several dozen you need.</p>	<p>\$0.10</p>
<p>3530.3</p>	<p>AM Foam Outlet Gasket AM55011</p>
